December 2008

Diploma of Logistics Management | Warehouse Distribution Transport & Logistics
RMIT, Broadmeadows

December 2008

Diploma of Business Management | Business Warehousing & Logistics
RMIT, Broadmeadows

July 2008

Certificate IV in Transport & Distribution | Warehousing and Inventory Management
RMIT, Broadmeadows

2022 / 2023

Full Stack Developer / Engineer

Academyxi – Course Accomplishments To Date

- Successfully completed HTML
- Successfully completed CSS
- Successfully completed JavaScript

CURRENTLY

February 2022 - Currently

Studying at Academyxi to become a Full Stack Developer/Engineer.

- I am looking to gain coding practice and programming experience, with the aim to compliment my studies and course with having some hands-on guidance.

The following links are to school projects undertaken:

- **HTML, CSS**

Guidelines: Combine a one-page HTML & CSS APP To Complete a <https://andrew3586.github.io/profile-project/>

- **HTML, CSS**

Guidelines: Combine one page HTML & CSS APP To Complete a <https://andrew3586.github.io/andrew-profile/>

- **HTML, CSS, JavaScript**

Goal: Combine HTML, CSS & JavaScript to Complete an APP <https://andrew3586.github.io/sunny-app/>

Fetching, Babel, Webpack, Basic Routes, Nested Routes, Class Components.

- Ruby, Pry, Loops, Conditional Statements, Flow Operators, Arrays, Hash Basics, Enumerables, Method Syntax, Iterating, Nested Hashes, Regex, Object Orientation, Classes & Instances, Instance Methods, Getters & Setters, Attribute Accessor, Implicit Self, Class Variables, Class Methods, Private Method, Custom errors, Object Inheritance. Keyword arguments, Metaprogramming, Gems & Bundler.
- SQL Lite, Select, Create Table, Insert Update & Delete, Queries, Relational Database Tables, Foreign Keys, Join Tables, Object Relational Mapping, Mapping Classes, ORMs, Updating Records, Inheritance, Rake, Migrations, Using Seed Data
- Sinatra, Web APIs, Application Structure, Get, Active Record Requests. Show & Destroy, Create etc.
- Ruby Rails & Redux, File Structure, Model View Controller, Seeds, Faker, Active Record, Routing, Params, Custom Rendering, Restful Routing, Delete, Destroy, Controller Exception Handling, CRUD, Controller Validations, API, Get & Post Requests, Adding React to Rails, Client Server Communication, Error Handling, Active Record, Active Model Serialising, Cookies & Sessions, Login Authorisation, Password Protection, Deployment.

- **HTML, CSS, JavaScript**

Goal: Combine HTML, CSS & JavaScript to Complete an APP

EXPERIENCE

January 2013 to Current

Lizandez Pty Ltd.

Creator Designer & Director

I am the creator and designer of Lizandez Pty Ltd, a part-time passion of mine and my wife. We have continually developed the web design and functionality; it has been a platform that we have implemented a range of ideas over the years, to cater for our customers ease of purchase and movement through our website while supplying all the information required to make an informed decision on a purchase. Considering SEO, digital marketing and Website security and a professional eye-catching presentation. This has been the inspiration that has sparked my passion to become a Software Engineer/Developer

April 2020 - July 2020

Drake International/Paradigm | Laverton, Victoria

Site Supervisor

- Supervised projects to uphold schedule requirements and quality demands.
Achievement – Successfully completed tasks on time and on budget.
- Organized and participated in monthly on-site meetings with clientele and subcontractors.
Achievement – Built strong business relationships.
- Implemented onsite safety protocols and procedures and properly trained team members on prevention measures.
Achievement – Zero serious injuries and 100% compliance.
- Mentored staff and implemented training in efficiencies and safety
Achievement – Improving productivity by 40%.
- Coordinated budget, tracked expenses, and documented progress and variations from plans.
Achievement – Transparent reporting monitoring positive progress
- Tracked material usage and contractor hours to align projects with budgets.
Achievement – Maintained materials budget without comprising standards.
- Reviewed project blueprints and specifications to determine number of workers needed to complete jobs.
Achievement – Maintained budget an on-time project completion.
- Delegated duties to employees based on skillset.
Achievement – Increase in work involvement and confidence building.
- Trained and monitored employees to teach daily tasks and improve performance.
Achievement – Increased performance and employees acquired a better understanding of their work goals.
- Kept production team moving forward for progress in daily site operations.

Industry I Came From

Meticulous Logistics Manager with desire to find effective solutions to performance issues, WMS software and high freight costs. Experienced in mentoring employees and enforcing safety procedures. Offers successful career history spanning 20 + years

Achievement – Striving for improvement in all areas of the work environment.

- Participated in networking events to establish and cement community ties, B2B relationships and industry connections.
- Identified client business and operational needs and introduced services to provide solutions for daily operations, client relations & IT
